- ... Patch wall holes

- ... Take the mouldings off
- ... Put a new floor

According to Debbie Travis, why is the floor a good choice? choose between the two words which one the presenter uses.

On top of the *floor/ door* base, we're putting in the latest in cork floors. Now *these/the* cork floor can go *right/ straight* over linoleum, vinyl, even ceramic tile. Before

Although the furniture is expensive, its dated elegance screams Eighties passé. The wrought iron (*fer forgé*) 'Fairy Princess' headboard and the overly fancy flounces on the windows are going to be replaced with a more contemporary look.

The old bedroom dated from the: ☐ 1970 ☐ 1980 ☐ 1990

The headboard is:

☐ at the top of the bed ☐ the mirror above the dresser ☐ the mirror in the bathroom

The flounces refers to: ☐ the bed sheets ☐ the curtain ☐ the carpet

After

The bedroom makeover looks sophisticated and sensuous. The simple design, modern and chic. We freshened up the attractive white dressers with a shimmering silver trim (*ornement*) and pewter (*étain*) handles, adding legs for streamlining and height. The padded headboard (comfy for night-time reading) the full-length curtains and the en-suite bathroom, were done in neutral tones for understated elegance. Finally, the wall-to-wall beige carpet was ripped out and replaced with a rich dark warm-to-the-touch cork flooring by Torlys. *Bellissima!*
